PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning (CGPA: 8.64), with hands-on experience building Python-based machine learning models and data-driven applications using MySQL. Developed a Random Forest classification model for network intrusion (DDoS) detection, applying data preprocessing, feature engineering, and model evaluation across the end-to-end ML workflow. Skilled in Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), and the Software Development Life Cycle (SDLC), with working knowledge of HTML, CSS, and version control using Git and GitHub. Completed a Python Full Stack Development training program and a Deloitte Technology Job Simulation focused on practical coding and software development. Seeking to contribute strong analytical, programming, and problem-solving skills to a Software Engineer, Python Developer, or AI/ML Engineer role.

TECHNICAL SKILLS

Programming Languages: Python, C

Machine Learning: Machine Learning Fundamentals, Scikit-learn, Random Forest, Classification, Data Preprocessing, Model Training & Evaluation

Web Technologies: HTML, CSS

Databases: MySQL, SQL, Database Management Systems (DBMS)

Tools & Platforms: Git, GitHub, Version Control, VS Code

Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Software Development Life Cycle (SDLC)

Soft Skills: Analytical Thinking, Debugging, Problem Solving, Team Collaboration

PROJECTS

DDoS Attack Detection System — Machine Learning | Python, Scikit-learn, Random Forest

- Designed and implemented a Random Forest classification model in Python to detect Distributed Denial-of-Service (DDoS) attacks from network traffic data, addressing the need for automated intrusion detection.
- Applied data preprocessing and feature engineering to network traffic patterns, enabling the model to distinguish malicious activity from legitimate traffic.
- Built a real-time monitoring and visualization module to surface threat alerts, enabling faster identification and response to potential network intrusions.
- Executed the end-to-end ML workflow — data preprocessing, model training, and evaluation — to strengthen network security monitoring and detection reliability.

Personal Finance Management System | Python, MySQL

- Designed and developed a Python-based application to track daily expenses, income, and financial records for individual users.
- Implemented persistent data storage and automated report generation, enabling users to analyze spending trends and monitor budgets over time.
- Built an intuitive interface for adding, updating, and viewing transactions, improving data entry efficiency and usability.
- Applied relational database design principles using MySQL to structure and organize financial data, supporting accurate reporting and analysis.

RELEVANT COURSEWORK

Data Structures & Algorithms • Object-Oriented Programming • Database Management Systems • Operating Systems • Machine Learning • Software Development Life Cycle

EDUCATION

- B.Tech, Computer Science Engineering (AI & ML) — Raghu Engineering College, Visakhapatnam | CGPA: 8.64 (through 3rd year, 1st semester)
- Intermediate (12th) — Aditya Junior College | 92.8%
- SSC (10th) — Wisdom EM High School | 99.8%

CERTIFICATIONS

- Deloitte Technology Job Simulation — Forage (March 2026): Completed practical coding and software development tasks.
- Python Full Stack Internship Certificate — ULearn (June 2026): Completed training in Python full-stack development.
- Python Programming Course (Hands-On) — SkillRack (Dec 2024): Completed hands-on training in Python programming fundamentals and problem-solving.

ACHIEVEMENTS

- Secured 3rd Prize in a PPT Presentation competition on Neuralink Technology at Raghu Engineering College.
- Secured 2nd position in the department for consistent academic excellence and strong performance.
- Active member of the National Service Scheme (NSS), contributing to organized social service initiatives.
